    1. HTML, CSS, SCSS, JavaScript, jQuery,Bootstrap, Tailwind ,WordPress,Git/GitHub, MySQL and Basic knowledge of Python,java,ReactJS

EXPERIENCE

2020 Jan -
2021 June

- **ERP System's Customer Support**
  CGM Myanmar Company

- Handling inquires 10 branches offices.

- Through reproducing issues and identifying root causes, I investigated system errors and user problems.

- I carefully gathered necessary information and reported it to my supervisor.

- Additionally, I supported users by explaining how to use the system and organizing information to help improve their understanding.

2025 Jan - 2025 Jun

- **Intern**
  Freelance Development Team

  - Participated in the BuilderMall EC site renewal project as an intern member of a five-person team.

  - Under the guidance of a senior front-end developer, I was responsible for design revisions and the implementation of new features using HTML, CSS, SCSS, JavaScript, jQuery, and WordPress, based on Figma designs.

  - Actively contributed to developing a responsive website compatible with multiple devices and managing content.

  - Additionally, I identified existing issues, proposed practical improvement plans to the team, and implemented them.
